Meet PETNER dog food

Petner pet food are nutritious meals for dogs and cats. It is a daily dose of all necessary nutrients, prebiotics, vitamins and minerals that comprehensively cover the animal's nutritional needs. Each serving in its composition resembles a delicious dinner, tailored to the needs of cat and dog nature!

Everything your pet needs

Our food support the dog's health and build his condition in four important aspects: healthy joints, healthy teeth, easy and proper digestion as well as healthy skin and shiny coat.

Food composed for the cat support harmonious development, healthy heart and healthy urinary tract. The additional effects of the diet are shiny coat, lightness of movement and agility. The health and happiness of the pet can be seen at a glance. Find out!

Meet the Petner brand

We are a Polish company that creates comprehensive meals for dogs and cats. Our team includes veterinarians and animal lovers who transform their knowledge and passion into our products. By choosing Petner, you can be sure that you give your pet what it needs! For caregivers we have a huge portion of knowledge and inspiration that will make caring a pure pleasure. We invite you to read blog: www.petner.com.pl

What else have we done with your pet's health in mind?

Simple and clear composition, because a natural choice is a good choice. Find out more about the health benefits of our feeds.

- Our products do not contain wheat and soy, they are GMO-free.
- They do not contain preservatives, dyes, flavour enhancers and artificial flavours, and yet animals love them. Do you know why? The dried meat we add has a natural aroma, which dogs and cats really like.
- Wet food in handy sachets for cats and gourmet foodies. Meat in an aromatic broth with the addition of fruit and vegetables, or delicate fillets with cranberries in a sauce - these are our suggestions for natural meals without cereals, preservatives or artificial flavours. We also recommend them to animals with very sensitive stomachs.
- Natural delicacies, because everyone deserves a little pleasure (and with dried chews is a long-lasting delight). Deer skin, chicken fillet, pork tail, prosciutto ham bone or rabbit ears? Aromatic, rich in protein, rich in collagen, an Italian delicacy, soft and particularly crunchy? Choose the best offer for your dog.

Take care of your dog with PETNER dog food!

Petner pet food is a tasty and complete meal for your pet. Each portion in its composition resembles a delicious dinner - most of it consists of nutritious animal protein, a little rice, healthy salmon oil and vegetable additions. All you need is a bowl of fresh water next to it and dinner is ready!

Remember: Too rapid changes in the dog's diet can result in diarrhea. Therefore, it is recommended to introduce new food gradually over several days, increasing the amount administered daily.

Give your dog carefree and health, visible at first glance!

EASY DIGESTION

The addition of chicory and yeast supports healthy bowel function. Chicory contains inulin - a soluble fibre and a natural prebiotic supporting the development of "good bacteria" in the digestive tract. This beneficial bacterial flora helps increase the digestibility of nutrients and inhibits the growth of pathogenic microorganisms in the digestive tract.

HEALTHY JOINTS

Glucosamine and chondroitin are two of the best-known protective ingredients for joint cartilage. Glucosamine strengthens joints, inhibits degeneration and supports the reconstruction of healthy articular cartilage. Chondroitin improves joint function and endurance, and when combined with glucosamine, it increases joint and bone resistance to micro-damage.

HEALTHY SKIN AND COAT

The addition of fresh salmon oil, which is one of the richest sources of omega-3 fatty acids (e.g. EPA and DHA), makes the skin healthy and the coat gains shine. It helps to balance the ratio of omega-6 to omega-3 in the diet.

HEALTHY TEETH

The shape and texture of the food granule stimulates the dog to chew, which helps remove plaque.

For
young dogs

Why choose PETNER?

PETNER JUNIOR ALL BREEDS for young dogs of all breeds is:

- Complete and balanced dry food for young dogs. It contains properly selected amounts of nutrients and essential vitamins and minerals to ensure healthy growth and development.
- Nutrients are adapted to the age and needs of puppies, both small and large breeds.
- The addition of glucosamine and chondroitin has a positive effect on cartilage and joints. This is especially important for fast-growing breeds, which are often exposed to diseases of the musculoskeletal system.
- Salmon oil present in the feed, which is a natural source of fatty acids, supports puppies' learning ability, brain development and affects healthy skin and coat.
- Increased caloric content to provide the growing pooch with the right amount of energy for carefree play.
- **Croquettes of the right size.** Ideally suited to small mouths, and their shape supports hygiene and protection of dog teeth.
- Does not contain: GMOs, preservatives, flavour enhancers, artificial colours and flavour. Without allergenic wheat and soy.
- Available in two flavours: **turkey and lamb.**

**Give him Petner pet food so that he can enjoy health and carefree
for many years!**

For
adult dogs

Why choose PETNER?

PETNER ADULT DOG is:

- A daily full meal. Ideally suits the nutritional needs of adult dogs regardless of their breed.
- A complete meal for a quadruped. It contains all the necessary nutrients that comprehensively care for the good condition of your pet.
- It supports dog's health in 4 important aspects: joints, skin and fur, digestive system, dental hygiene.
- The composition includes min. amino acids, necessary for the proper operation of the joints. This is extremely important, especially for large breed dogs with a significant body weight.
- Dried chicory is a source of natural prebiotics, thus preventing your dog's digestive problems.
- Salmon oil, zinc and vitamins A and E care for healthy skin and shiny coat.
- The food does not contain artificial flavours, flavour enhancers, preservatives or dyes. It is also GMO free.
- Two delicious flavours: with the addition of turkey or lamb. Each of them has the same high content of animal protein and functional additives. Thanks to this, your dog will be able to enjoy its unique taste, and you will be sure that you give him the best.
- **Croquettes of various sizes easily adapt to the specific needs of each dog.**

Wet food for dogs

Why choose PETNER?

Sachets are a handy and practical packaging. They guarantee the aromatic taste of each serving. In addition, unlike cans, sachets are easy to dispose of.

Petner wet food sachets are a **100% natural meal**. They are distinguished by a simple composition and carefully selected ingredients.

Monoprotein (one source of animal protein) composition of ingredients is ideal for animals struggling with food allergies (beef and lamb).

The whole line of sachets **does not contain cereals, GMOs, artificial colours and preservatives.**

Available in **4 unique offers**: beef with pumpkin, lamb with cranberry. Let your dog taste all carefree flavours!

Each sachet contains a high content of valuable animal protein: as much as 95.5% of the meal is meat and offal in own aromatic broth. Guarantee of high palatability!

The richness of functional additives supports the good condition and health of the dog, and vegetables and fruits are a natural source of valuable vitamins and fibre.

Yeast and chicory have a positive effect on the intestinal flora and facilitate digestion.

Green-Lipped Mussel (a natural source of glucosamine and chondroitin) supports the osteoarticular system.

The addition of salmon oil, which is a source of omega 3 - supports healthy skin and shiny coat.

Beef is a source of high quality protein, iron, magnesium, potassium and B vitamins.

Lamb contains L-carnitine that increases the efficiency of the body and helps maintain a healthy body weight. Lamb is extremely delicate meat, especially recommended for dogs with food allergies.

Venison contains relatively little fat, very little cholesterol, is a valuable source of iron and is rich in proteins and minerals.

Poultry meat is characterized by high nutritional value and relatively low calorific value. It contains vitamins and microelements, including zinc, have a positive effect on the dog's skin and coat.

Pumpkin is a source of beta-carotene, vitamins A and C and natural antioxidants. In addition, it is a low-calorie vegetable and thanks to the high content of dietary fibre supports digestive processes.

Cranberry contains vitamins (A, C, E), minerals (potassium, sodium, selenium) and antioxidants that support the immune system. In addition, cranberry has a beneficial effect on the urinary tract.

Blueberries are rich in selenium, zinc, iron and antioxidants that prevent cancer, cell damage and brain aging. They are a great supplement to the diet of dogs undertaking increased physical activity, working as well as dog seniors.

Zucchini is rich in vitamins C, A, K, B vitamins and beta-carotene. In addition, it is an excellent source of dietary fibre. Gently regulates digestive processes, preventing constipation.

BEEF WITH PUMPKIN

Complete wet food with beef and pumpkin for adult dogs.

Composition: 67% composed of Beef Hearts, Beef Meat, Beef Lung, Beef Liver, Beef Tripe, 28,5% Broth, 3% Pumpkin, 1% Minerals, 0,2% Salmon Oil, 0,1% Chicory, 0,1% Green-Lipped Mussel, 0,1% Brewers Yeast.

Nutritional additives per kg: Vitamin D3 200 I.U., Vitamin E (alpha-tocopheryl acetate) 20 mg, Vitamin B1 10 mg, Vitamin B2 6 mg, Vitamin B6 2 mg, Vitamin B12 75 µg, Niacinamide 15 mg, Calcium D-pantothenate 9 mg, Folic acid 0,35 mg, Biotin 300 µg, Choline chloride 1200 mg, Zinc as Zinc sulphate monohydrate 25 mg, Manganese as Manganous sulphate monohydrate 1,4 mg, Iodine as Calcium iodate anhydrous 0,75 mg.

Analytical Constituents: Protein 10,70%, Fat 7,30%, Crude ash 2,20%, Crude fibre 0,40%, Moisture 75,00%.

Metabolic energy: 1216,1 kcal/kg.

Snacks for dogs!

Natural dried snacks

Treats for dogs is the perfect variety to everyday meals, but also a form of healthy reward after training! In our offer every dog gourmet will find delicacies that are right for him.

Dried natural chews will **perfectly satisfy the natural desire to bite**, which will help in maintaining the oral hygiene of your dog. Certainly they will give him joy and occupation for a long time! In addition, **they are extremely aromatic and tasty dog treats**.

For real connoisseurs, we have an Italian dog treat - **a prosciutto bone**. It is a dried, natural pork bone made of Italian Parma ham. The delicacy has a refined, sweet and intense taste. In addition, the ham is not smoked, but dried, which allows you to keep all of its properties and taste that will make your pet happy.

- Snacks are 100% natural
- Made from whole pieces of meat
- Polish product
- No added preservatives, artificial colours, flavours or flavour enhancers
- Safe due to thermal pasteurization
- Perfect as a variation for everyday meals or a healthy reward

DRIED CHICKEN FILLET

Breast fillets are delicate, meat delicacies for a dog, made from 100% fresh meat of the highest quality. Rich in protein, healthy and easily digestible. Satisfies the natural desire to bite, which helps in maintaining the oral hygiene of our pet.

Composition: 100% chicken fillet.

Analytical constituents: Crude protein 77.1%, Crude fat 3.9%, Crude fibre 0.5%, Crude ash 4.8%.

Package size: 100 g

DRIED PORK TAIL

Pork tail is a chew with a less intense smell, liked by all dogs. It is rich in collagen. Cartilage and meat are tasty and filling, so they will satisfy your dog's appetite.

Composition: 100% pork tail.

Analytical constituents: Crude protein 66.1%, Crude fat 29.2%, Crude fibre 9.1%, Crude ash 3.6%.

Package size: 100 g

DRIED RABBIT EARS

Dried rabbit ears are valuable and easily digestible form of snack for a dog. Mild to the digestive system and extremely crunchy.

Composition: 100% rabbit ears.

Analytical constituents: Crude protein 51.1%, Crude fat 18.8%, Crude fibre 0.4%, Crude ash 3.9%.

Package size: 50g

DRIED DEER SKIN

A hard dog treat that has a strong need to chew. Like all game snacks, it is extremely aromatic. Satisfies the natural desire to bite, which helps in maintaining the oral hygiene of your pet.

Composition: 100% deer skin.

Analytical constituents: Crude protein 68.8%, Crude fat 6.1%, Crude fibre 0.8%, Crude ash 4.1%.

Package size: 100 g

PROSCIUTTO BONE

Bone from traditional Italian Prosciutto dried ham is an Italian delicacy for exceptional gourmets.

Composition: 100% pork ham bone.

Analytical constituents: Crude protein 23%, Crude fat 32%, Crude ash 23%, Moisture 21%, Crude fibre 1%.

Package size: 200g

DRIED BEEF TRIPE

Beef rumen is a light digestible delicacy with a characteristic smell, rich in valuable bacterial cultures. Supports digestion, improves appetite and stimulates the intestinal flora, preventing recurrent diarrhea. Restricts the dog's snacking on grass and dirt walks.

Composition: 100% beef tripe.

Analytical constituents: Crude protein 75.3%, crude fat 10.2%, crude fibre 1.4%, crude ash 11.0%.

Package size: 400 g

DRIED BEEF TENDONS

Dried beef tendons are extremely hard chews that give the dog a job for longer. Perfectly clean teeth and removes stone. Thanks low fat content recommended for large breeds prone to overweight and having problems with joints.

Composition: 100% beef tendons.

Analytical constituents: Crude protein 69.8%, Crude fat 13.6%, Crude ash 2.4%, Crude fibre 6.6%.

Package size: 400 g

DRIED BEEF SKIN

Dried beef skin is a fairly hard delicacy with an average amount of fat. Because it is long, the dog does not chew it along and does not swallow large pieces too quickly. Recommended to dogs that eat chews fairly quickly and intensively.

Composition: 100% beef skin.

Analytical constituents: Crude protein 83.1%, Crude fat 3.3%, Crude fibre 0.4%, Crude ash 2.4%.

Package size: 400 g

DRIED BEEF UDDER STICKS

Dried beef udders are a delicate and soft delicacy with a natural taste and smell. Is a rich source of protein and microelements. Because it does not contain any additions artificial substances, it can be administered sensitive and allergic tetrapods.

Composition: 100% beef udders.

Analytical constituents: Crude protein 59.4%, Crude fat 26.8%, Crude fibre 0.2%, Crude ash 3.0%.

Package size: 400 g

Dry food for cats!

Why choose PETNER?

Petner cat food is a **full-fledged daily meal**. Each serving in its composition resembles a delicious dinner, tailored to the needs of the cat. It contains a set of all necessary nutrients, **prebiotics, vitamins and minerals** that comprehensively cover its nutritional needs. By choosing Petner, you can be sure that you will give your cat what it needs.

Dry food in two delicious formulas: with poultry and lamb for **sterilised cats**, and with poultry and beef **for adult cats**. You will be surprised how quickly they will become your cat's delicacy!

STERILISED CAT is food for cats after sterilisation, castration and a tendency to gain weight. **The lowered fat level**, thanks to which he helps to maintain a healthy body weight. The addition of **L-carnitine** allows better use of energy supplied in food and stored in the body. **In sterilised cats, the risk of lower urinary** tract diseases also increases, which is why in Petner's feed you will find **cranberries** that protect against irritation and help fight bacterial infections.

ADULT CAT is food for adult cats, which thanks to the **high content of protein** supports the maintenance of muscle mass and the overall condition of the body. The addition of vitamins and **taurine** helps maintain the proper growth and development of the cat and the work of the heart.

What distinguishes PETNER dry food?

Our cat food is made without wheat and corn. **It does not contain soy, so it is gluten-free** and does not burden the digestive system of cats.

The **addition of salmon oil**, which is a source of omega-3, supports healthy skin, shiny coat and reduces inflammation.

The presence of **chicory** - a natural source of prebiotics - **and beet pulp**, helps maintain the balance of bacterial flora in the digestive tract and supports the proper digestion process.

The high fibre content **reduces the formation of hair balls**.

The addition of sodium polyphosphate promotes **less tartar build-up**, while the shape and texture of the granules helps clean teeth.

Does not contain artificial flavours, flavour enhancers, preservatives or dyes. It is also GMO free.

Wet food for cats!

Why choose PETNER?

Complete Petner wet food for adult cats is a tasty mixture of carefully prepared, fleshy fillets in an aromatic sauce with the addition of cranberry. Thinking about cat tastes, we have prepared four flavours: chicken with turkey, chicken with duck, chicken with beef, chicken with lamb. Your cat will be surprised by their unique taste!

Petner wet food will provide your cat with the necessary nutrients, including a rich vitamin and mineral complex.

Composed of ingredients compatible with cat's nature.

It helps to maintain proper hydration of the body (Cats rarely drink water and do not cover the body's needs in this way, and this promotes urinary tract diseases.) That is why combining dry and wet food in the cat's diet is so important.

Healthy urinary tract - thanks to cranberry, which is a source of valuable vitamins, minerals, antioxidants and has a positive effect on the urinary tract.

Addition of taurine - one of the most important amino acids for a cat. Essential for proper growth, development and functioning of the cat.

Does not contain artificial flavours, flavour enhancers, preservatives or dyes. It is also **GMO free**. **Because a natural choice is the best choice!**

Without the addition of cereals and sugars, which does not burden the digestive system of cats.

CHICKEN WITH DUCK IN GRAVY

Complete wet food with chicken, duck and cranberry in gravy for adult cats.
